

Nativity /Display Guidelines

- **Contact Information.** It is important to provide a phone number for contact upon arrival. We also need to be informed if the event is on streets that are narrow, on hills, with double-sided parking.
- **Parking.** Animals /Camels are mainly transported in our very large trailer; therefore, we require a parking space of a minimum of 60' to 80' feet to accommodate our vehicle. Keep in mind that the trailer is also 12' wide, as well as 10' tall. Such a large rig also requires wider turns to enter parking areas, so please ensure that there is enough space to maneuver. If necessary, we may be able to bring a slightly smaller trailer, so please let us know prior to the event if entry may be a problem. Please have a traffic control plan in place.
- **Animals must be discussed ahead of time. Please refer to our packages:**
- **LIVE NATIVITY SCENE | LIVING CRECHE** Scenes are custom made, so just ask us to tailor a program to fit your needs. We will happily dress up in your costumes to be part of your theme.
- **Deluxe Nativity/ Wise Man Scene | *Includes standing camel, sheep, goats, llama or Alpaca and standing donkey** More animals are available upon request.
- **Basic Nativity Scene *Includes sheep, goats, donkey and llama or alpaca.** More animals are available upon request.
- **Audience barriers:** Place can vary for our live animals. We bring the live animals, Customer is to provide barrier between the animals and spectators to prevent any accidents. Be aware that different animals have different needs and reactions. Customer is to provide the set up area like manger or bales of hay to tie our animals too & costumes they want us to wear. We provide the animals for the display, walk through or drive-through experiences that families stay in their cars while viewing the scenes. If discussed prior we may allow visitors to interact with the animals. We require a fenced, roped area or customer is to provide Hay bales to provide a barrier or to tie sheep and animals up to. A chained area works nicely for Nativity displays or rides. Please call to go over exactly how you want the animals displayed. If a walk through the church is wanted this must be discussed ahead of time & must be done safely with no one in the path way of our walk. 15 foot clearance for camels on each side. A 30x30 area is sufficient for display and photos. If discussed ahead of time we may be able to work in smaller spaces. We will need a minimum of 50x50 for rides. Pavement or grass are sufficient surfaces, so long as the area is flat. Staging area must not contain any poisonous plants or pesticides. The Camel ride area must not have low-hanging branches or structures that pose a danger to participants. Camel rides require a clear path that is fenced, roped or chained off to allow only riders inside. The area cannot be adjacent to loud music or noise makers. Balloons cannot be tied to the area for decoration or any other purpose.
- **Participants** cannot enter the area unless discussed prior. No balloons or any other hand-held items. Participants cannot place their hands in or near the animals mouth. Participants also cannot stand beside the camel's stomach or

- **Overtime.** Once your rental agreement has expired, there will be a \$30.00 charge for each additional ride beyond that point. This option is only available if we are not booked for another event that follows yours. If another event is scheduled, rides will immediately be terminated at the end of the rental period.
- **Departure.** At the end of the rental period, we must be provided with a clear path for the pack up and movement of our animals and equipment back to the truck and trailer. We cannot be obstructed by guests, and the truck cannot be blocked by vehicles which may delay departure. In some instances, we may have another event scheduled after yours, so it is important that our departure is as quickly as possible.
